*CoolSculpting*  
is here!

**are you ready for this  
winter's chill?**

**freeze away those  
holiday bulges.**

The CoolSculpting treatment makes use of controlled cooling to reduce those fat deposits. FDA approved, this non-surgical procedure is used to non-invasively reduce the fat layers of the flanks and the love handles. One of Cool Sculpting's benefits is that it requires no anesthesia, no incisions, no pain medication, and no downtime.

**stomach intro pricing \$999.00**  
**flanks intro pricing \$999.00**  
(regular price \$1499.00 per area)

**CoolSculpting  
in  
Philadelphia**

We are excited to welcome Dr. Susan Hughes and CoolSculpting by ZELTIQ to the JA Team. This treatment is ideal for those who are close to their target weight but, due to either genetics or other extenuating circumstances, cannot get rid of the fat on their sides and back.

**How CoolSculpting in Philadelphia works**

The CoolSculpting treatment makes use of controlled cooling to reduce fat deposits. FDA approved, this non-surgical procedure is used to non-invasively reduce the fat layers of the flanks and the love handles.

Once the fat cells have been cooled by the applicator, your body will natural cleanse itself of the cells. This results in a gradual and safe fat reduction. Within 2 months, you will have the contoured body that you want, with result noticeable after only 3 weeks following the treatment.

**More Good News!**

No anesthesia, No incisions  
No pain medication  
No downtime.
